

# Errata

## *Nutrition & Diagnosis-Related Care* Ninth Edition

---

Note: The following errata only appears in the first printing of *Nutrition & Diagnosis-Related Care*, 9th Ed. To determine the print run of your book, consult the middle of the copyright page, which is the page directly before the Table of Contents. The last numeral in the countdown starting with 10 indicates the print run of the book. In the example below, the book would be in its first printing since the 1 is the last digit in the string of numerals.

10 9 8 7 6 5 4 3 2 1

Page and location	Original	Corrected
666, first bullet under <b>Food and Nutrition</b> section	If tolerated, use a diet with 30 to 40 g of fat per kilogram of body weight. Diet should be low in fiber (<25 g), with six small meals a day.	Recent guidelines discourage dietary fat restriction except in cases of uncontrolled steatorrhea. Diet should be well-balanced but low in fiber (<25 g) (Arvanitakis et al, 2020).

Page 667 ■ Under References, a new entry has been added:
